**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Inventor : Mitchell R. Swartz

Serial no. 09/ 750,765

Filed: 12/28/00

For: **METHOD AND APPARATUS  
TO CONTROL ISOTOPIC FUEL  
LOADED WITHIN A MATERIAL**

This is a continuation of Serial no. 07/ 760,970

Group Art Unit: 3641

Examiner: Mr. Palabrica, R.J.

RECEIVED  
JUN 03 2004  
GROUP 3600

May 26, 2004

Office of the Clerk  
Board OF PATENT Appeals  
c/o The Commissioner for Patents  
Alexandria, VA 22313-1450

**PETITION to the COMMISSIONER  
pursuant to 37 C.F.R. 1.181**

1. This petition is made pursuant to 37 C.F.R. 1.181 to the Commissioner of Patents, and is made to invoke his supervisory authority to correct the situation with respect to the recent unsigned OFFICE Communication dated May 17, 2004 [Exhibit "A" attached; hereinafter simply Office Communication or Office notification. Pursuant to 37 C.F.R. 1.181, there is no fee.

The Appellant has received said notification regarding the Appeal Brief dated May 17, 2004.

This Petition will demonstrate that all matters cited by the Office have already been addressed and corrected in the now-submitted revised Appeal Brief.

This Petition will also demonstrate that said matters were already addressed in the Appellant's previously submitted "Notice of Compliance".

This Petition also addresses all inaccurate statements in the Office notification.

This Petition will demonstrate that the Examiner has ignored the Appellant's arguments, ignored the Appellant's Declarant's statements including those of the recently murdered Dr. Eugene Mallove.

This Petition will demonstrate that the Examiner failed to accurately record the claims, and because of that and the previous remand by the Board, the Examiner remains DETERMINED TO NEVER allow this case to reach the Board again.

2. This Petition is reasonable, based upon the reasons stated below and confirmed by the facts as discussed in the two (2) Declarations supporting this Petition. In the discussion below, reference is made to the Declaration of Dr. Mitchell Swartz (hereinafter called the "Swartz Declaration") dated May 17, 2004. It will be demonstrated that this Petition is reasonable because of the Office's failure to be accurate and follow a uniform standard of review. In the discussion below, reference is made to the Declaration of Gayle Verner (hereinafter called the "Verner Declaration") dated May 17, 2004. It will be demonstrated that this Petition is reasonable.

3. Briefly, in response to said Office notification (Exhibit "A"), this "Response to Communication by Examiner and Notice of Compliance by Appellant", hereinafter called Response will demonstrate that all matters cited by the Office have already been addressed and corrected in the already now-submitted revised Appeal Brief.

#### **The Office's First False Statement**

4. The Office's Communication inaccurately states,  
*"Applicant's 4/23/04 response to the 3/31/04 Notice of Non-Responsive still does not properly or totally correct the deficiencies regarding the 10/28/03 Appeal Brief. No amendment to the Appeal Brief was submitted with the response."*

#### **THE TRUTH - The Appellant Responded**

This statement by the Examiner is disingenuous for several reasons.

First, any and all purported deficiencies made by the Examiner in the previous communication were addressed.

Second, in fact, the Appellant was totally compliant before, and is totally compliant now (as will be discussed below). Attention of the Court and Board is directed to the simple fact that all matters were both resolved and discussed by the Appellant, prior to the murder of Appellant's Declarant, Dr. Eugene Mallove, whose statements have been disparaged by the Office for several years.

Third, for reasons unclear the Examiner refuses to respond to the Appellant. Unfortunately, said previous response by the Appellant was once again simply ignored by the Examiner, leading to his disingenuous sentence cited above.

Fourth, it was Examiner who now ADMITS that both the Office and the Examiner made a mistake about the claims to torment the Appellant. For reasons unclear the Examiner and Office refuses to harrassing the Appellant even though the Examiner has admitted that it was HE who confused the claims and harassed the Appellant forcing him to make endless triplicate Appeal Briefs. Proving this, previously, the Office's Communication stated.

*"4. Contrary to the allegation on page 10 of "Notice of Compliance by Appellant," applicant has not corrected Appendix A. Claim 19, as recited, still does not include the term "active" before "quantity"."*

**THE TRUTH - It Was The Examiner Who Was Unable To Accurately Record The Claims**

The Court and Commissioner are directed to the record. In Applicant's October 22, 2002 missive to the Examiner (before Final), on pages 10 and 100 the deletion of the word "active" without prejudice was made and noted. This is shown on pages 100 [previous Exhibit "B"] and shown that it was discussed on page 10, among others, in response to the Examiner's comments and requests.

There is only one conclusion: It appears that the Examiner used impropriety to attack the Applicant (now Appellant), ignore the record, in the hope that the Office and Board would continue to condone continued obstruction of justice of a set of applications the first of which the Board made SPECIAL. The Appellant was required to plead and replead using Exhibits from the record which demonstrated that the word active in claim 19 was already deleted (because of the Examiner's previous demand) and that the Examiner's latest major complaint against the Appellant was (again) without foundation. And even now, the harrassment has not stopped one iota.

Fifth, for reasons unclear the Examiner continues to be disingenuous and to obstruct justice, as will be discussed in detail below. For reasons unclear the Examiner and Office refuse to relay the Appeal Brief to the Board even as the United States is at War and now one Declarant has been murdered.

Given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, and authority which allows the Examiner to dismiss the Appellant's previous responses without a single citation, or substantive coherent response.

### **The Office's Second False Statement**

5. The Office's Communication inaccurately states,

*"As to item in said Notice, wherein the Examiner stated that there is still no discussion in the Arguments section why each claim is separately patentable and provided specific examples of said deficiency, Applicant himself admits this is the case, as evidenced by his response 'The independent claims have been fully discussed in the Arguments section, and there is a specific of why each claim is present.' Underlining provided. Applicant's response clearly confirms what the Examiner has stated in said Notice, i.e., that Applicant provides arguments only for the independent claims 1, 4 and 13, and none for the dependent claims. This deficiency in the Appeal Brief is still outstanding."*

### **THE TRUTH - The Appellant Asked For The Authority Of This Paroxysmal Change And Violation Of Tk**

The Examiner is inaccurate for several reasons. The independent claims and all claims were addressed.

First, once again, the Examiner has been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner.

Second, Applicant's response clearly DOES NOT confirm what the Examiner has stated in his mutually disparate harassing Notices.

Third, Appellant requested why (since Appellant has been before the Board previously) the Examiner has included this NEW dictum which has never been used before. Appellant asked the Examiner to affirm that ALL other Appeal Briefs before the Board get similar harassing treatment.

Fourth, in Appellant's previous Communication, the Applicant took the time to respond to the Examiner and wrote the following Arguments about the Examiner's sweeping and precisely incorrect statements.

**"The Office's Communication inaccurately (stated),**

*"1. Claims 1-10, 12-19, 21 and 22 have been rejected. Applicant states in the Grouping of Claims Section that the 'appealed claims do not stand or fall together.' However, there is still' no discussion in the Arguments section of why EACH claim is considered separately patentable"*

**THE TRUTH - The Appellant Responded**

The Examiner is disingenuous about the Appeal Brief. The independent claims have been fully discussed in the Arguments section, and there is a specific reason why EACH independent claim is present. The Examiner knows this. The citations were given in Appellant's previous Notification explicitly. Instead of honesty, the Examiner is disingenuous and elects to be unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Notice or Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

"10. ... there is discussion in the Arguments section .... it is explicitly discussed on page 22 of the Argument section for 35 U.S.C. 112 (first paragraph), and then on page 92 of the Argument section for 35 U.S.C. 112 (second paragraph), and then on page 99 of the Argument section for 35 U.S.C. 102, and then on page 127 of the Argument section for 35 U.S.C. 101. In addition is was discussed on page 21.

Second Appellant respectfully disputes this because there is discussion in the Arguments section of why EACH claim is considered separately patentable.

Third, as Appellant stated,

"Claim 1 distinguishes and limits the invention, in a process for producing a product using a material which is electrochemically loaded with an isotopic fuel, to a method of controlling the loading which includes in combination, loading said isotopic fuel into said material, then providing means for producing a change in the quantity of said isotopic fuel within said material, creating thereby a catastrophic diffusion flux of said isotopic fuel within said material, providing a diffusion barrier to said diffusion flux of said isotopic fuel within said material, and thereby producing said product."

Claim 4 distinguishes and limits the invention, in a process using an isotopic fuel loaded into a material, to a two-stage method for controlling the loading which includes in combination loading said isotopic fuel into said material, then providing means for producing a change in the quantity of said isotopic fuel within said material, creating thereby a catastrophic diffusion flux of said isotopic fuel within said material.

Claim 13 distinguishes and further limits the invention to an apparatus to produce a product using a material loaded with an isotopic fuel, which includes in combination means to load said isotopic fuel into said material, means to produce a change in the quantity of said isotopic fuel within said material, means to produce a catastrophic diffusion flux of said isotopic fuel within said material, means thereby to produce said product."

Fourth, judiciary economy is important, and Appellant did not want to repeat each portion discussed on page 21 an additional four times. However, to please the Examiner and the Office, the Appellant has corrected this, as requested."

["Appellant's Notice to the Board", dated 1/4/04]

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004.

Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Attention is now directed to the fact that said comments in Applicant's Communication have simply been ignored by the Examiner. The Examiner did not cite Applicant's arguments presented in detail. Nor did he discuss Applicant's arguments. Nor did he rebut Applicant's arguments. Therefore it is absolutely impossible to tell how the Examiner weighed Applicant's arguments. Because the Examiner was requested to answer and respond with specificity, the Examiner has apparently ignored the Office rules, and expectations of reasonable people. Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,"**

**"10. ... there is discussion in the Arguments section .... it is explicitly discussed on page 22 of the Argument section for 35 U.S.C. 112 (first paragraph), and then on page 92 of the Argument section for 35 U.S.C. 112 (second paragraph), and then on page 99 of the Argument section for 35 U.S.C. 102, and then on page 127 of the Argument section for 35 U.S.C. 101. In addition it was discussed on page 21."**

**"Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response -- other than his desire to deny an American the protection afforded by the US Constitution, by the laws passed by the US Congress, and which are inherent to the applicant involving both right to due process and consistent standard of review. The Applicant is disappointed that expense, effort, diligence are ignored in submitted documents which were received by the Examiner - but ignored with an unfounded, improper, and egregious attack on the Appellant."**

**"Fifth, there is no basis for the examiner's demand. Historically, this case and docket is such that the present above-entitled invention is a continuation of the previous application, which was before the Board of patent appeal and before the federal court. In that docket (S.N. ' 970) of which the present above entitled application is a continuation, neither the Board nor court had any problem. Instead the Examiner has created bogus issues and fabricated new demands to obstruct the appellant from presenting his appeal brief to the Board of patent Appeal."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Sixth, the Examiner's new demands have no basis in authority or law or precedent on a general basis. The appellant has previously responded, and it is the examiner who has failed to respond in his unsigned communication which ignores the appellants submitted (and received) notification of compliance and new appeal brief's."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Seventh, the Examiners new demands are inconsistent with the normal standards of review. The standard of review in this Case includes the fact that the examiner suddenly demands that the appellant right separate responses for each of the key pending claims whereas the law requires and the standards of review consists out, appellants who dealt with the independent claims."**

**"Eighth, the examiners new demands are unnecessary, and clearly have been made only to obstruct justice and deny the Board access to an Appeal. "**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

6. As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"4. The Office's Communication inaccurately states,**

*"a. As to the rejections under 35 U.S.C. 112, 1st paragraph, Applicant provides arguments only for claims 1, 4 and 13. No separate, claim-specific arguments are presented for each one of claims 2, 3, 5-10, 12, 14-19, 21 and 22 (see page 21 of the Appeal Brief)."*

**"THE TRUTH - The Appellant Responded**

The Examiner is incorrect for several reasons. First, the Examiner is disingenuous about the Appeal Brief. The independent claims have been fully discussed in the Arguments section, and there is a specific of why EACH claim is present. For example, in said Notice or Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

"The Office is wrong ... it is explicitly discussed on page 22 of the Argument section for 35 U.S.C. 112 (first paragraph)."

["Appellant's Notice to the Board", dated 1/4/04]

Attention is now directed to the fact that said comments in Applicant's Communication have simply been ignored by the Examiner. The Examiner did not cite Applicant's arguments presented in detail. Nor did the Examiner discuss Applicant's arguments. Nor did the Examiner rebut Applicant's arguments. Therefore it is absolutely impossible to tell how the Examiner weighed Applicant's arguments. Because the Examiner was requested to answer and respond with specificity, the Examiner has apparently ignored the Office rules, and expectations of reasonable people. Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,

"(This) is explicitly discussed on page 22 of the Argument section for 35 U.S.C. 112 (first paragraph)"

Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response -- other than Mr. Palabrica's desire to deny an American the protection afforded by the US Constitution, by the laws passed by the US Congress, and which are inherent to the applicant involving both right to due process and consistent standard of review.

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending

series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"The Applicant is disappointed that expense, effort, diligence are ignored in submitted documents which were received by the Examiner - but ignored with an unfounded, improper, and egregious attack on the Appellant.**

**Second, there is no basis for the examiner's demand. Historically, this case and docket is such that the present above-entitled invention is a continuation of the previous application, which was before the Board of patent appeal and before the federal court. In that docket (S.N. ' 970) of which the present above entitled application is a continuation, neither the Board nor court had any problem. Instead the Examiner has created bogus issues and fabricated new demands to obstruct the appellant from presenting his appeal brief to the Board of patent Appeal.**

**Third, the Examiner's new demands have no basis in authority or law or precedent on a general basis. The appellant has previously responded, and it is the examiner who has failed to respond in his unsigned communication which ignores the appellants submitted (and received) notification of compliance and new appeal brief's.**

**Fourth the examiners new demands are inconsistent with the normal standards of review. The standard of review in this Case includes the fact that the examiner suddenly demands that the appellant write out separate responses for each of the dependent claims whereas the law requires and the standards of review consist of, appellants having only to deal with the independent claims.**

**Fifth, the Examiner castigates the Appellant for repeating things, but is attempting to trick to Appellant into stating almost the same thing over and over.**

**Sixth, the examiners new demands are unnecessary and made only to obstruct justice. The examiner continues to be unreasonable, inaccurate, and apparently not on the same page as either the security of United States or the empowerment of United States citizens secondary to article 1 section 8."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

7. As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**5. The Office's Communication inaccurately states,**

*"b. As to the rejections under 35 U.S.C. 112, 2nd paragraph, Applicant provides arguments only for claims 1, 4 and 13. In fact, the arguments for these rejections are mere repetitions of the arguments for the 35 U.S.C., 1st paragraph rejections. No separate, claim-specific arguments are presented for each one of claims 2, 3, 5-10, 12, 14-19, 21 and 22 (see page 92 of the Appeal Brief)."*

**THE TRUTH - The Appellant Responded**

The Examiner is disingenuous about the Appeal Brief. The independent claims have been fully discussed in the Arguments section, and there is a specific of why EACH claim is present. The Examiner knows this. The citations were given in Appellant's previous Notification explicitly. Instead of honesty, the Examiner is disingenuous and elects to be unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Notice or Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

"The Office is wrong ... it is explicitly discussed ... on page 92 of the Argument section for 35 U.S.C. 112 (second paragraph)"

["Appellant's Notice to the Board", dated 1/4/94]

Attention is now directed to the fact that said comments in Applicant's Communication have simply been ignored by the Examiner. The Examiner did not cite Applicant's arguments presented in detail. Nor did the Examiner discuss Applicant's arguments. Nor did the Examiner rebut Applicant's arguments. Therefore it is absolutely impossible to tell how the Examiner weighed Applicant's arguments. Because the Examiner was requested to answer and respond with specificity, the Examiner has apparently ignored the Office rules, and expectations of reasonable people. Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,

"The Office is wrong ... it is explicitly discussed ... on page 92 of the Argument section for 35 U.S.C. 112 (second paragraph)"

Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response -- other than Mr. Palabrica's desire to deny an American the protection afforded by the US Constitution, by the laws passed by the US Congress, and which are inherent to the applicant involving both right to due process and consistent standard of review.

The Applicant is disappointed that expense, effort, diligence are ignored in submitted documents which were received by the Examiner - but ignored with an unfounded, improper, and egregious attack on the Appellant.

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

8. As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**6. The Office's Communication inaccurately states,**

*"c. As to the rejections under 35 U.S.C. 102, Applicant provides arguments only for claims 1, 4 and 13. In fact, the arguments for these rejections are mere repetitions of the arguments for the 35 U.S.C., 1st paragraph rejections. No separate, claim-specific arguments are presented for each one of claims 2, 3, 5-10, 12, 14-19, 21 and 22 (see page 100 of the Appeal Brief"*

**THE TRUTH - The Appellant responded**

The Examiner is disingenuous about the Appeal Brief. The independent claims have been fully discussed in the Arguments section, and there is a specific of why EACH claim is present. The Examiner knows this. The citations were given in Appellant's previous Notification explicitly. Instead of honesty, the Examiner is disingenuous and elects to be unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Notice or Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

"The Office is wrong ... it is explicitly discussed ... on page 99 of the Argument section for 35 U.S.C. 102"

["Appellant's Notice to the Board", dated 1/4/04]

Attention is now directed to the fact that said comments in Applicant's Communication have simply been ignored by the Examiner. The Examiner did not cite Applicant's arguments presented in detail. Nor did the Examiner discuss Applicant's arguments. Nor did the Examiner rebut Applicant's arguments. Therefore it is absolutely impossible to tell how the Examiner weighed Applicant's arguments. Because the Examiner was requested to answer and respond with specificity, the Examiner has apparently ignored the Office rules, and expectations of reasonable people. Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,

"The Office is wrong ... it is explicitly discussed ... on page 99 of the Argument section for 35 U.S.C. 102"

Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response -- other than Mr. Palabrica's desire to deny an American the protection afforded by the US Constitution, by the laws passed by the US Congress, and which are inherent to the applicant involving both right to due process and consistent standard of review. The Applicant is disappointed that expense, effort, diligence are ignored in submitted documents which were received by the Examiner - but ignored with an unfounded, improper, and egregious attack on the Appellant."

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

9. As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"7. The Office's Communication inaccurately states,**  
*"d. As to the rejections under 35 U.S.C. 101, Applicant provides arguments only for claims 1, 4 and 13. In fact, the arguments for these rejections are mere repetitions of the arguments for the 35 U.S.C., 1st paragraph rejections. No separate, claim-specific arguments are presented for each one of claims 2, 3, 5-10, 12, 14-19, 21 and 22 (see page 131 of the Appeal Brief)."*

The Examiner is disingenuous about the Appeal Brief. The independent claims have been fully discussed in the Arguments section, and there is a specific of why EACH claim is present. The Examiner knows this. The citations were given in Appellant's previous Notification explicitly. Instead of honesty, the Examiner is disingenuous and elects to be unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Notice or Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

"The Office is wrong .... it is explicitly discussed .... on page 127 of the Argument section for 35 U.S.C. 101."

["Appellant's Notice to the Board", dated 1/4/04]

Attention is now directed to the fact that said comments in Applicant's Communication have simply been ignored by the Examiner. The Examiner did not cite Applicant's arguments presented in detail. Nor did the Examiner discuss Applicant's arguments. Nor did the Examiner rebut Applicant's arguments. Therefore it is absolutely impossible to tell how the Examiner weighed Applicant's arguments. Because the Examiner was requested to answer and respond with specificity, the Examiner has apparently ignored the Office rules, and expectations of reasonable people.

Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,

"The Office is wrong .... it is explicitly discussed .... on page 127 of the Argument section for 35 U.S.C. 101."

"Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response -- other than Mr. Palabrica's desire to deny an American the protection afforded by the US Constitution, by the laws passed by the US Congress, and which are inherent to the applicant involving both right to due process and consistent standard of review. The Applicant is disappointed that expense, effort, diligence are ignored in submitted documents which were received by the Examiner - but ignored with an unfounded, improper, and egregious attack on the Appellant."

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

### **The Office's Third False Statement**

10. The Office's Communication states,

*"As to item 2 in said Notice on the Grouping of Claims, the deficiency cited therein has not been corrected despite the guidance cited by the Examiner (i.e., MPEP 1206) regarding the proper content of this section of the Appeal Brief."*

Once again, the Examiner has been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Communication, the Applicant took the time to respond to the Examiner and wrote the following comments,

**"8. The Office's Communication inaccurately states,**

*"2. The Grouping of Claims section is improper because it includes arguments as to why claims 1, 4 and 13 distinguish and limit the invention. As stated in the 12/3/03 Office Action, these arguments should be in the Arguments section. See MPEP 1206, 'Appeal Brief', for guidance on the content for this section."*

**"THE TRUTH - The Appellant Responded**

The Appellant has followed and the arguments are in the Arguments section. This was discussed in the previous (ignored) Notice to the Examiner. The Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,

*"10. ... there is discussion in the Arguments section .... it is explicitly discussed on page 22 of the Argument section for 35 U.S.C. 112 (first paragraph), and then on page 92 of the Argument section for 35 U.S.C. 112 (second paragraph), and then on page 99 of the Argument section for 35 U.S.C. 102, and then on page 127 of the Argument section for 35 U.S.C. 101. In addition is was discussed on page 21."*

*"The Applicant is disappointed that expense, effort, diligence are ignored in submitted documents which were received by the Examiner - but ignored with an unfounded, improper, and egregious attack on the Appellant. even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner."*

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

### **The Office's Fourth False Statement**

11. The Office's Communication states,

*"As to item 3 in said Notice, the deficiency is still outstanding. Item 75, page 93 of the Appeal Brief, dated 1/4/04, refers to a 35 U.S.C. 112, 2nd paragraph, rejection of claims 1, 10 and 21. As stated in said Notice, these were not the claims rejected in the 3/20/03 Final Office Action.*

*Section 14 of said Office Action states, "Claims 10, 12-19, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which the applicant regards as his invention."*

Once again, the Examiner has been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

**"9. The Office's Communication inaccurately states,**

*"3. Contrary to the allegation on page 9 of "Notice of Compliance by Appellant," applicant has not corrected the error cited in Section f, item d) of the 12/30/03 Office Action (see item 75, page 93 of the Appeal Brief). "The claims referred to by the Applicant in said item 75 are still incorrect because they are not the claims rejected by the Examiner in the 3/20/03 Final Office Action Therefore, the arguments presented by the Applicant in this section of the Appeal Brief are non-responsive to the claim rejections because they address the wrong claims."*

### **THE TRUTH - The Appellant Responded**

*"The Examiner has been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. The Appellant in careful detail demonstrated that the claims were correctly identified. The Appeal Brief says: "73..... all Claims 1-10, 12-19, 21, and 22 rejected under 35 U.S.C. 112 " below a heading of "ARGUMENT REGARDING 35 USC §112 SECOND PARAGRAPH". Therefore, the questions is "Were claims 1-10, 12-19, 21, and 22 rejected under 35 U.S.C. 112 second paragraph?". Exhibit "B" was presented to show the Examiner the he previously wrote that "claims 1-10, 12-19, 21, and 22 rejected under 35 U.S.C. 112 second paragraph" in his rejection on page 27. Therefore, as the Examiner knows, in fact, the claims were stated correctly AND that the Appellant responded, but the Examiner did not. Therefore, the Appellant complied and was responsive."*

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

### **The Office's Fifth False Statement**

13. The Office's Communication purports,

*"As to item 5 in said Notice, this matter is still outstanding with regard to Appendix B and the ZerAEpoint letter."*

### **THE TRUTH - The Appellant Responded**

Once again, the Examiner has been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in said Communication, the Applicant took the time to respond to the Examiner and wrote the following comments.

Once again, the Examiner has been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. For example, in "Appellant's Notice to the Board", dated 1/4/04, the Applicant took the time to respond to the Examiner and wrote the following comments.

**"Appellant thanks the Examiner for this careful detail, but the Appellant notes that Dr. Mallove's quotes from Appendix B were cited in context on pages 28 through 29 and 129 through 130 in the Appeal Brief. Perhaps the Examiner missed this, and therefore, the Appellant has corrected this for the Examiner."**

**["Appellant's Notice to the Board", dated 1/4/04]**

This argument by the Appellant was ignored, as were further references to it. For example, in "Appellant's Communication", dated 4/21/04, the Applicant took the time to respond to the Examiner and wrote the following comments.

**"Attention is now directed to the fact that said comments in Applicant's Communication have simply been ignored by the Examiner. May the Court and Board note that once again, the Examiner did not cite Applicant's arguments, nor did the Examiner discuss Applicant's arguments, nor did the Examiner rebut Applicant's arguments. Therefore it is impossible to tell how the Examiner weighed Applicant's arguments. Because the Examiner was requested to answer and respond with specificity, the Examiner has apparently ignored the Office rules, and expectations of reasonable people."**

**:Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response. Specifically, the Applicant hereby requests to know the basis which allows the Examiner to dismiss the Argument that,**

**"Dr. Mallove's quotes from Appendix B were cited in context on pages 28 through 29 and 129 through 130 in the Appeal Brief. "**

**Therefore, given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss this Argument by the Applicant without citation, analysis, or substantive coherent response."**

**["Appellant's Communication", dated 4/21/04]**

Convenient for the Examiner, Dr. Mallove was murdered May 14, 2004, and did not live to see the Patent Office be truthful in any regard whatsoever on this subject.

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

Therefore, given the above, the Appellant yet again requests to know the substantive precise reason, scientific basis, or authority which allows the Examiner to dismiss these facts and Arguments by the Applicant, now Appellant, without citation, analysis, or substantive coherent response.

#### **The Office's Sixth False Statement**

14. The Office's Communication inaccurately states,

*"Since the above deficiencies have been listed in the 12/30/03 Office Action, and repeated in the 3/31/04 Notice, Applicant's failure to further correct them is not considered inadvertent."*

#### **THE TRUTH - The Appellant Responded**

This statement by the Examiner is disingenuous.

First, it is the Examiner who was confused about the claims and now attacks the Appellant endlessly.

Second, this argument by the Appellant was ignored, as were further references to it. For example, in "Appellant's Communication", dated 4/21/04, the Applicant took the time to respond to the Examiner and wrote the following comments.

**"12. The Office's Communication inaccurately states,**

*"Since the above deficiencies have been listed in the 12/30/03 Office Action, Applicant's failure to correct them is no longer considered inadvertent."*

#### **"THE TRUTH - The Appellant Responded**

**"This statement by the Examiner is disingenuous. The above deficiencies were not listed in the 12/30/03 Office Action. Furthermore, any and all purported deficiencies made by the Examiner in the previous communication were addressed and corrected. In fact, the Appellant was totally compliant before, and is totally compliant now (as will be discussed below). Attention of the Court and Board is directed to the simple fact that all matters were both**

resolved and discussed by the Appellant. Unfortunately, said previous response by the Appellant was once again simply ignored by the Examiner, leading to the disingenuous sentence cited above.

For example, first, the Office's previous notification stated, "*a. The statement of the Status of Claims is inconsistent with Appendix A (Claims Involved in the Appeal). Claims 11 and 20 are not listed in the Status Of Claims but they are listed in Appendix A.*" Appellant corrected this misprint in Appendix A. Therefore, the Appellant complied and was responsive.

Second, the Office's previous notification stated, "*b. The statement of Status of Amendments is confusing because it appears to refer to the original claim 5, instead of an amended claim 5*". Appellant disputed the Examiner that this is confusing. Nonetheless, Appellant complied and corrected this by adding the word "amended" exactly where the Examiner demanded. Therefore, the Appellant complied and was responsive."

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

"Third, the Office's previous notification stated, "*c. The Summary of Invention is improper because it includes subject matter not found in the disclosure (e.g. see page 4, 2nd paragraph which is not recited in the Abstract).*" The Examiner was mistaken because these lines are in the original disclosure of the above-entitled application on page 3, lines 1 through 4. Nonetheless to comply with the Examiner, the offending paragraph is now deleted. Therefore, the Appellant complied and was responsive.

Fourth, the Office's previous notification stated, "*d. The recitation and scope of Issues is improper because it does not conform to MPEP 1206. For example, applicant does not specify the basis of the alleged unpatentability of the claims. An example of a proper way of phrasing an issue is as follows: 'Whether claims 1-20 are unpatentable under 35 U.S.C. 112, first paragraph, based on a nonenabling disclosure.'*" The Examiner was wrong for eight (8) reasons, listed and discussed in detail (but ignored by the Examiner). In addition, the Appellant conformed with the Examiner's suggestions and rewrote the Issues. Therefore, the Appellant complied and was responsive.

Fifth, the Office's previous notification stated, "*Other examples of impropriety include: a) associating operability of the claimed invention with 35 U.S.C. 112 1st and 2nd paragraphs issues*". The Examiner was wrong for nine reasons, listed and discussed in detail (but ignored by the Examiner). In

addition, there is no mention of operability of the claimed invention in the argument paragraphs of the 35 U.S.C. 112 2nd paragraphs issues. Appellant respectfully disputed this because utility and USC 101 are not discussed on page 22 of the Appeal Brief, except through enablement. Therefore, the Appellant complied and was responsive.

Sixth, The Office's previous notification stated, *"b) improperly including terms not relevant to the grounds of rejection used by the examiner, e.g., 1.192q6)(v)' statements on "disingenuous claim by the Office" etc.."* The Examiner was wrong for six reasons, listed and discussed in detail (but ignored by the Examiner). So as to fully comply with the Examiner, the Appellant corrected this and removed the Issues which offended the Office about the "United States Constitution", despite Appellant's civil rights thus clearly violated. Therefore, the Appellant complied and was responsive."

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

*'Seventh, the Office's previous notification stated, "e. The statement on Grouping of Claims is improper because it includes arguments as to why claims 1, 4 and 5 (sic) distinguish and limit the invention. These arguments should be in the Argument section".* The Examiner was wrong for six reasons, listed and discussed in detail (but ignored by the Examiner). The independent claims discussed in the Grouping of Claims is not "claims 1, 4 and 5" as the Examiner purports, but Claims 1, 4 and 13. As Appellant stated, as follows in the Appeal Brief,

*"Claim 1 distinguishes and limits the invention, in a process for producing a product using a material which is electrochemically loaded with an isotopic fuel, to a method of controlling the loading which includes in combination, loading said isotopic fuel into said material, then providing means for producing a change in the quantity of said isotopic fuel within said material, creating thereby a catastrophic diffusion flux of said isotopic fuel within said material, providing a diffusion barrier to said diffusion flux of said isotopic fuel within said material, and thereby producing said product.*

*Claim 4 distinguishes and limits the invention, in a process using an isotopic fuel loaded into a material, to a two-stage method for controlling the loading which includes in combination loading said isotopic fuel into said material, then providing means for producing a change in the quantity of said isotopic*

fuel within said material, creating thereby a catastrophic diffusion flux of said isotopic fuel within said material.

Claim 13 distinguishes and further limits the invention to an apparatus to produce a product using a material loaded with an isotopic fuel, which includes in combination means to load said isotopic fuel into said material, means to produce a change in the quantity of said isotopic fuel within said material, means to produce a catastrophic diffusion flux of said isotopic fuel within said material, means thereby to produce said product."

Therefore, the Appellant complied and was responsive.

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

"Eighth, the Office's previous notification stated, "The Grouping of Claims section states that *"the appealed claims do not stand or fall together."* However there is no discussion in the Arguments section as to why EACH claim is considered separately patentable." The Examiner was wrong for six reasons, listed and discussed in detail (but ignored by the Examiner). Despite the disingenuous statement of the Examiner, it is explicitly discussed on page 22 of the Argument section for 35 U.S.C. 112 (first paragraph), and then on page 92 of the Argument section for 35 U.S.C. 112 (second paragraph), and then on page 99 of the Argument section for 35 U.S.C. 102, and then on page 127 of the Argument section for 35 U.S.C. 101. In addition it was discussed on page 21. In addition, to please the Examiner and the Office, the Appellant corrected this, as requested, yet again. Therefore, the Appellant complied and was responsive. Why does the Examiner NEVER have to respond?"

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Ninth, the Office's previous notification stated, *"f. Applicant's contentions in the Arguments section are improper. Examples of impropriety include: a) issues of operability and utility are improperly associated in arguments regarding the 35 U.S.C. 112, 1st paragraph rejection (see page 22 of the Brief)"*. The Examiner was wrong for seven reasons, listed and discussed in detail (but ignored by the Examiner). First, utility and USC 101 are not discussed on page 22 of the Appeal Brief. Second, for ten years the Office has cited "operability" pursuant to 35 U.S.C, 112, first paragraph issues. All of a sudden, the Office's previous arguments that were reasonably consistent over more than a decade in this matter, apparently were changed suddenly without any clear substantive explanation, authority, exhibit, or basis for the paroxysmal change - despite repeated requests. Therefore, the Appellant complied and was responsive."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Tenth, the Office's previous notification stated, *"c) claims rejected under 35 U.S.C 112, 2nd paragraph are not correctly identified (e.g., see item 75, page 92)"*. The Appellant in careful detail demonstrated that the claims were correctly identified. The Appeal Brief says: "73..... all Claims 1-10, 12-19, 21, and 22 rejected under 35 U.S.C. 112 " below a heading of "ARGUMENT REGARDING 35 USC §112 SECOND PARAGRAPH". Therefore, the questions is "Were claims 1-10, 12-19, 21, and 22 rejected under 35 U.S.C. 112 second paragraph?". Exhibit "B" was presented to show the Examiner the he previously wrote that "claims 1-10, 12-19, 21, and 22 rejected under 35 U.S.C. 112 second paragraph" in his rejection on page 27. Therefore, as the Examiner knows, in fact, the claims were stated correctly AND that the Appellant responded, but the Examiner did not. Therefore, the Appellant complied and was responsive."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Eleventh, the Office's previous notification stated, *"b) arguments regarding 35 U.S.C. 112, 2nd paragraph, improperly discusses 35 U.S.C. 102(b) rejection of claims (e.g. see page: 92)"*. The Appellant in careful detail demonstrated that the Examiner was incorrect. The Board and Examiner were directed to the fact that the record demonstrates that the Appellant had appealed on the Issue of "definiteness". Therefore, the Appellant is entitled to bring up an argument regarding the rejection of Claims 1-10, 12-19, 21 and 22 under 35 U.S.C. 112 second paragraph which states, -- as Appellant notes to the Board -- "... there has to have been definiteness with respect to the present invention because it is a Continuation and because the Examiner could not have made the previous rejections under 35 U.S.C. 102 had the invention truly been without definiteness." The Examiner knows that the Appellant responded, but the Examiner did not. Therefore, the Appellant complied and was responsive."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Twelfth, the Office's previous notification stated, *"d) claims rejected as being anticipated by Kinsella under 35 U.S.C. 102(b) are not correctly identified (e.g., see item 95, page 110).*" The Appellant has corrected this and noted,**

**Appellant suggests that the Examiner has said this "tongue-in-cheek" and to put the Appellant through another "hoop" because although the Applicant did make a misprint here and used "Claims 1, 2, 4, 5, 7, 10, 13, 15 and 16 have been rejected under 35 U.S.C. 102 (b) as being anticipated by Kinsella (U.S. 3,682, 806)" instead of "Claims 1, 2, 4, 5, 7, 10, 13, 15 and 16 and 21 have been rejected under 35 U.S.C. 102 (b) as being anticipated by Kinsella (U.S. 3,682, 806)". However, as the Examiner knows, in fact, in the important summary page on 141 of the Appeal Brief, the Appellant stated this correctly.**

**This demand of the Examiner is inconsistent with the U.S. Supreme Court, which has ruled that any *pro se* litigant is entitled to less stringent standards [U.S. Rep volume 404, pages 520-521 (72)].**

**The Examiner knows that the Appellant responded, but the Examiner did not. Therefore, the Appellant complied and was responsive."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Thirteenth, the Office's previous notification stated, *" claims that have not been rejected, such as claims 11 and 20, are improperly included in the list.*" Appellant corrected this misprint. Therefore, the Appellant complied and was responsive."**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

*"Fourteen, the Office's previous notification stated, 'The purpose of Appendix B is unclear. Applicant should either properly relate this Appendix to his arguments or delete it.' Appellant noted that Dr. Mallove's quotes from Appendix B were cited in context on pages 28 through 29 and 129 through 130 in the Appeal Brief. The Examiner missed this. In addition, the Appellant corrected this for the Examiner. The Examiner knows that the Appellant responded, but the Examiner did not. Therefore, the Appellant complied and was responsive."*

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harrassed the Appellant.

As another example of how the Office has ignored the Appellant, in the previous Communication, the Applicant/Appellant took the time to respond to the Examiner and wrote the following comments.

**"Here then are fourteen (14) ways Appellant responded and/or complied. And to these 14 changes and/or responses, the Examiner has done nothing except to disingenuously pretend that there has been no response. Instead of allowing the Board in its own wisdom to resolve the important matter involving the Applicant's invention and civil rights, and now involving US security, the Examiner --fully aware that the Appellant responded-- with tongue deep-in-cheek pretends that Appellant did not. However, the record, the previous Notification, and this present Response with the accompanying Declarations, do palpably affirm otherwise. The Appellant complied and was responsive. "**

Where is the Examiner's response to any of this? It is not present in the Office's Communication dated May 17, 2004. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though they were fully discussed in significant detail in the previous Communication from the Applicant to the Examiner. Once again, the Examiner and Office have been unresponsive to Applicant's arguments even though direct questions were asked citing the authority for their never-ending series of unreachable tasks even as the Office admits it got the claims wrong and then harassed the Appellant.

15. As another example of the fact that the putative problems are in the mind of the Examiner who refuses to abide either by Congressional directive, Constitutional authority, Office rules, federal regulations, and the normal standards of review.

Attention is directed to the simple indelible fact that in the Office's communication dated May 17, 2004 [Exhibit "A"] the Examiner admits that it was HE who could not keep track of what the claims were. None the less the Examiner attacked the Appellant. Previously, the Office's Communication stated (before the murder of Dr. Mallove),

*"4. Contrary to the allegation on page 10 of "Notice of Compliance by Appellant," applicant has not corrected Appendix A. Claim 19, as recited, still does not include the term "active" before "quantity"."*

But that was not true. Instead, it was ruse, and just another attempt by the Office to trick the Appellant.

Given the above, the Applicant hereby again requests to know the substantive precise reason, scientific basis, and authority which allows the Examiner to dismiss the Appellant's previous fourteen responses without a single citation, or substantive coherent response.

16. Appellant has already fixed the errors which the Office has noted previously.

The Board made the first of these patent applications Special.

The United States is at war over terror and it involves energy.

17. The U.S. Supreme Court, which has ruled that any *pro se* litigant is entitled to less stringent standards [U.S. Rep volume 404, pages 520-521 (72)]. Still, this remains ignored, even in this setting of the Office's communication dated May 17, 2004 [Exhibit "A"], which appears to itself have at least eleven serious errors, and even admits the Examiner could not keep track of what the claims were. Previously, the Office's Communication stated (before the murder of Dr. Mallove),

*"4. Contrary to the allegation on page 10 of "Notice of Compliance by Appellant," applicant has not corrected Appendix A. Claim 19, as recited, still does not include the term "active" before "quantity". "*

The Court and Commissioner are directed to the record which again heralds the impropriety of the Examiner. In Applicant's October 22, 2002 missive to the Examiner (before Final), on pages 10 and 100 the deletion of the word "active" without prejudice was made and noted. This was shown on pages 100 [in the submitted Exhibit "B"] and shown that it was discussed on page 10, among others, in response to the Examiner's comments and requests. It appears that the Examiner used behavior with impropriety to (again) attack the Applicant (now Appellant), as the Examiner has acted to ignore the record, in the hope that the Office and Board would continue to condone continued obstruction of justice of a set of applications the first of which the Board made SPECIAL.

The Appellant was repeatedly required to plead an Exhibit which demonstrated that the word active in claim 19 was deleted and that the Examiner was without foundation. And even then, the harrassment has not stopped one iota. For reasons unclear the Examiner and Office continue to be disingenuous and to obstruct justice, as will be discussed in detail below. For reasons unclear the Examiner and Office refuse to relay the Appeal Brief to the Board even as the United States is at War and now one Declarant has been murdered.

**NOTA BENE:** Even with that admission, the Examiner continues harassing the Appellant over every dotted "i" and crossed "t". Meanwhile, Declarant Dr. Mallove, constantly disparaged by the Office and the Examiner has been murdered. And in that setting, the Office and Examiner have continued to ignore Appellant's communication of May 17, 2004, even as ignored Applicant's previous communications, including those of October 22, 2002 [Exhibit "B"], and the Notice and Appeal submitted to the Office (and received) on January 4, 2004.

18. The Office's communication dated May 17, 2004 has at least six serious errors, which must now be added to those of the Office's communication dated March 31, 2004 which had at least eleven serious errors, and the forty three errors before that.

Considering only the six errors and misguided demands and tricks here, if there was a fifty percent likelihood of each error (that is, if it were made innocently), then with the fifty-four (54) previous cumulative errors by the Examiner in the last several months since the remand from the Board, it appears that there is now less than one chance in a hundred billion billion likelihood [1 in  $\sim 1 \times 10^{18}$ ] that the Examiner is totally innocent regarding his errors.

19. Attention is directed [in the light of the previous fifty-four (54) errors in other recent Office Communications used by the Examiner, used to delay both justice and delivery of Appeal Briefs to the Board, and to deny civil rights to the Appellant, and security to the United States of America] to the fact that the Examiner has admitted he at last attempted that it was he, the Examiner, who could not keep track of what the claims were. It appears that the Examiner used behavior with impropriety to (again) attack the Applicant (now Appellant), as the Examiner has acted to ignore the record, in the hope that the Office and Board would continue to condone continued obstruction of justice of a set of applications the first of which the Board made SPECIAL. For reasons unclear the Examiner and Office continue to be disingenuous and to obstruct justice, as will be discussed in detail below. For reasons unclear the Examiner and Office refuse to relay the Appeal Brief to the Board even as the United States is at War and now one Declarant has been murdered.

20. The Appellant notes that all matters purported by the Office have been addressed totally by Appellant, and addressed in Responses.

The Appellant notes that all fully compliant Appeal Brief is in the hands of the Office.

The Appellant notes that the Office STILL has not address the Declarants, and that now one, the esteemed Dr. Eugene Mallove, has been murdered.

The Appellant requests reciprocity. If the Examiner is to be forgiven for mixing up claims and then demanding the Appellant supply triplicate Appeal Briefs three times, then the Appellant should be forgiven for a typing error or for complying to previous Appeal Briefs formats, already before the Board, and should be protected by the authority of U.S. Rep volume 404, pages 520-521 (72).

WHEREFORE for the above reasons, the Applicant (now Appellant) thanks the Commissioner and the Board [and the Court, if necessary] for their patience and wisdom and requests immediate address and rectification of these matters consistent with U.S. Rep volume 404, pages 520-521 (72) and the other cited authorities, and compliance with the normal standards of review. This can begin by examining the conduct of the supervisors of Michael J. Carone and the Examiner which has remained contrary to the Evidence and the Record, as heralded by their tardive admission that they got the Claims of the above-entitled application wrong (or pretended such) and then reversing this situation.

This long drawn-out series of falsehoods, not even ending in the Examiner's and Mr. Carone's tardive admission that the Office got the claims wrong, should also be a further basis for Sanctions. Attention is directed to the simple fact that the Office has continued to make disingenuous statements in federal documents and the mail again to harass the Appellant and hurt the United States of America and its productive citizenry.

Most importantly, regarding the above-entitled action, a reasonable substantive response will begin with the transfer of the Exhibits and Appeals Briefs to the Board for justice and compliance with the said standards of review and the cited authorities cited in detail above and in previous timely-received communications from the Applicant (now Appellant).

Respectfully submitted,

---
